MARAZZI
DESIGN

KITCHENS

Paul Marazzi's passion for design, has fashioned a uniquely identifiable style, a fusion of modern and classical influences, creating original design concepts, never seen before, and compiled library of outstanding and inspired work.

His philosophy is to understand artisan's techniques of the past, and reinterpret them, using the latest technology and modern day engineering.

A truly bespoke product, where each component is custom made, individually built and finished by hand, offering an unprecedented choice of customised styles, finishes and materials, from 24 carat gold, to the finest wood veneers.

Paul makes it possible to add your own personality, to any of his passionate and luxurious designs, be it a timeless opulence or cutting edge chic.

A kitchen should have a soul and presence, stirring the emotions, celebrating family life and convivial living, transforming the kitchen into the heart and soul of the home.

Gold & Silver Leaf

Corian & Cement

There are many, many finishes available, including different materials, colours and treatments, for custom installations. All share excellent quality and solidity, ensuring a high value kitchen, both functionally and aesthetically, which will last for years to come.

Marazzi manages and organizes space efficiently and flexibly, thanks to its adaptable and multi-use solutions. The sophisticated details and finishes give a highly sought and elegant character to these workspaces.

Marazzi materials are rich, rare and of high quality. The blending of different materials such as, for example, leather, marble and cement, gives character to the surfaces, which depending on tastes and requirements, may be further customized with special textures.

Lacquer - MATT, GLOSS & METALLIC
